

Physician Member of the Board of Medicine

Benefits

- Satisfaction of protecting the public through regulation of the profession
- Opportunity to increase your understanding of the issues related to regulation
- Opportunity to enrich your professional contacts within Idaho and nationally.
- Chance to learn by serving with a highly dedicated and professional board.
- Recognition as a leader committed to the profession.
- Enjoy working for and learning about professional regulation

Duties

- Guide the continued development of a proactive organization by providing strategic direction and making policy decisions.
- Represent your organization; communicate board matters back to your constituents; and listen for professional issues and opportunities to take back to the board.
- Be an ambassador for the profession and for the board.
- Actively involved in making licensing and discipline decisions for the profession
- Attend four quarterly Board of Medicine meetings with a periodic Planning Retreat, possible subcommittee membership to work on special projects and attendance at a national conference. Meetings can require 12-14 hours of preparation and reading.

Skills Needed

- Licensed physician (MD or DO) in Idaho
- Genuine interest in continuous improvement of professional regulation
- Enthusiasm, energy, and commitment to the profession
- Ability to donate personal and organizational time and energy to board activities.
- Familiarity with the board function and responsibility is desirable.

Support

- Assistance of organized and dedicated board staff
- Travel support for Board members as needed.
- Advisors Stephen Marano, MD, Chairman and Nancy M. Kerr, Executive Director

Results Expected

- Continuous growth and improvement in professional regulation
- Increased public support and understanding of professional regulation issues
- Improved health care for Idaho
- Increased professional and ancillary understanding of board functions
